The Phoenix

at 812 Race St, Cincinnati, OH 45202

THE EVENING:

Silent Auction – Cocktail Hour – Dinner – Keynote Speaker: Dr. Christine O'Dea

To purchase tickets, please visit: globemedatuc2017.brownpapertickets.com

GLOBEMED BENEFIT DINNER (Continued)

Our keynote speaker this year is **Dr. Christine O'Dea**, Medical Director of Crossroad Health Center and Assistant Professor in the Department of Family and Community Medicine at the University of Cincinnati College of Medicine. We are also excited to feature a recent alumna, **Kirsten Boone**, as a guest speaker. We would love for you to join us to learn about GlobeMed's mission, our chapter's efforts, and how it applies to you.

Tickets may be purchased at <http://globemedatuc2017.brownpaperticket.com/> . Please purchase yours as soon as possible in order to guarantee a spot at the event and so that we can communicate information to the venue and caterers in a timely manner. **The current ticket price is \$45, but will increase to \$60 on February 10th.** Please extend this invitation to any friends, family members, or colleagues who you believe would be interested in attending.

If you cannot attend, but would like to contribute in another manner, you may do so in one of the following ways:

1. Sponsor a ticket for someone else: Buy a ticket at <http://globemedatuc2017.brownpaperticket.com/> and write "Sponsored Ticket" when you type in your first name on the website.
2. Contribute to our Benefit Dinner funding by writing a check payable to GlobeMed at UC to the following address: GlobeMed at UC, 3440 Middleton Ave., Cincinnati, OH 45220.
3. Donate through our Global Giving page: www.globalgiving.org/projects/globemedatcincinnati

Tickets can now be purchased via the following link:
<http://www.brownpapertickets.com/event/2757338>

Conferences & Symposiums:

**The Symposium on the Ethics of Help:
Creating Global Ambassadors for Patient Safety**

**June 8 & 9, 2017
- University of Minnesota**

The Ethics of Help Symposium has been designed to bring together those with a passion for protecting students as well as host communities. The Symposium will explore the problem of students, both undergraduates and pre-clinical health profession students, participating in direct patient care, at home and abroad, without sufficient training or oversight. The goal is to

Conferences & Symposiums: (Continued)

more clearly identify the problem or problems, generate and evaluate possible solutions, and create a coordinated plan of action.

Within the two-day event, Day 1 will be a focus on "Exploring & Defining the Challenges - How did we get here?" Day 2 will then turn to "Identifying & Framing the Action Steps - Where are we going and how to do get there?"

You can book your reservation by phone at (888) 627-7175 or you can make your reservation [online](#).

Training Opportunities:

Global Health Research Training Study (*Flyer Attached*)

If interested in participating in this research study, you will be asked to participate in a series of online educational modules and to complete online surveys related to these modules. Students will be given a link to an external website that contains the 4 online modules, as well as pre- and post-module surveys. Each module will take ~30-60 minutes to complete. For each module, a pre- and post-module survey will take ~10 minutes to complete.

The process begins with the participants receiving informed consent documentation on the first page of the online survey. If the participant agrees, the survey will begin on the next page.

If you have any questions or concerns about this research study, you should contact Jason Blackard at 513-558-4389 (office), 513-833-4589 (cell), or jason.blackard@uc.edu.

International opportunities for students in health fields: A Prezi with many such opportunities can be accessed through the Office of Global Health at <http://med.uc.edu/globalhealth/opportunities/medstudents> or directly through Prezi at https://prezi.com/tdtkstd5jdpX/international-opportunities-for-students/?utm_campaign=share&utm_medium=copy

GlobeMed Global Health Fellows Program II (GHFP): GlobeMed supports the GHFP II to build a diverse global health career pipeline. They facilitate early-career overseas internships for undergraduate students from backgrounds underrepresented in global health professions. GlobeMed engages 2,000+ undergraduates at 50+ university-based, student-led chapters throughout the US, and pairs these student groups with grassroots organizations in Africa, Asia, and Latin America. For more info go to www.ghfp.net or email info@ghfp.net.

Symposium on the **Ethics of Help:** *Creating Global Ambassadors for Patient Safety*

**What should aspiring health professionals
be allowed to do when traveling abroad?**

The issues are complex, and we've reached a tipping point.

Join the champions and the challengers and have a healthy discussion to better understand the issues, frame the conversation, and identify strategies that protect patients and communities everywhere.

Global Health Research Training Study

Dear trainees:

Many trainees embarking on global health experiences wish to participate in on-going research or small studies that can be completed in a relatively short period of time. However, they may not receive the kind of training on basic research skills needed to undertake such a project.

Collaborators at the University of Texas Medical Branch have developed a four-part online module series entitled ***Academic Skills Building through Global Health*** on basic research skills such as developing a research question and conducting a literature search, project implementation and international research ethics, developing an abstract, and developing a poster presentation.

These online resources are available to you free-of-charge through the Office of Global Health at the University of Cincinnati College of Medicine

You are being asked to take part in a research study to evaluate the effectiveness of the ***Academic Skills Building through Global Health Modules*** at increasing student confidence in research skills and preparedness to pursue a scholarly project abroad.

If interested, you will be asked to participate in a series of online educational modules and to complete online surveys related to these modules. Trainees will be given a link to an external website that contains the 4 online modules, as well as pre- and post-module surveys. Each module will take ~30-60 minutes to complete. For each module, a pre- and post-module survey will take ~10 minutes to complete.

The process begins with the participants receiving informed consent documentation on the first page of the online survey. If the participant agrees, the survey will begin on the next page.

If you have any questions or concerns about this research study, you should contact Jason Blackard at 513-558-4389 (office), 513-833-4589 (cell), or jason.blackard@uc.edu.
